Ayer's Sarsaparilla,  
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its virtues, many of which are truly marvellous. Invertebrate diseases, such as Hydrocephalus, where the system seemed saturated with corruption, have been purified and cured by it. Serpentine affections and disorders, which were aggravated by the various contaminations until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Serous Diseases, one of the most destructive enemies of our race. Often, this unseen and unfeeling tenant of the organism undermines the constitution, and invites the attack of infidelity or fatal disease, without exciting a suspicion of its presence. Again, it seems to be infected throughout the body, and then, at some favorable occasion, rapidly develop into one or other of his hideous forms, and appear on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs, heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is often the only remedy to be found.

Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*. St. Anthony's Fire, Rose or Erysipelas, Tetter, Salphæum, Scald Head, Ringworm, Ulcers, Sores, and other eruptions, visible forms of Serpentine disease. Also in the more concealed forms, as *Dyspepsia*, *Dropsey*, *Heart Disease*, *Fits*, *Epilepsy*, *Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

*Hypothymia* and *Mental Disease* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint.

*Leucorrhœa* or *Whites*, *Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating properties. Directions for the guidance of patient inquiry are referred to each box.

It is the best Remedy for *Gout*, *Rheumatic Gout*, *Gravel*, and all other complaints of the Bladder.

It is the safe and gentle medicine for Infants, Children, Delicate Females, and for the sicknesses of Pregnancy. Magnesia is indispensable.

Gold, Druggists and Storeshops.

N.B.—Directions for the guidance of patient inquiry are referred to each box.

PREPARED BY  
DR. J. C. AYER & CO., LOWELL, MASS.,  
Practical and Analytical Chemists.

SOLED BY ALL DRUGGISTS EVERYWHERE.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping

Cough, Bronchitis, Asthma,

and Consumption.

Probably never before in the whole history of medicine, has anything so widely and so deeply affected the confidence of mankind, in this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the violent affections of the lungs and throat, make it known as a powerful factor against them. When adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Cough, Cold, and Consumption, it should be kept on hand, and indeed as all are particularly subject to colds and coughs, it should be provided with this antidote for them.

Although settled, Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured by the and the patient restored to health, by taking the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Ague is always relieved and often wholly cured by it.

*Bronchitis* is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificate of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever,

Chill Fever, Remittent Fever, Dumb

Ague, Periodical or Bilious Fever, &c.,

and indeed all the affections which arise from malarious, the marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance.

The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine.

Our pride is gratified by the acknowledgments we receive of the radical cures effected in obscure cases, and among persons who had hardly a hope.

Unfortunate persons, either residents in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy action.

For Bowel Diseases and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, \$100 PER BOTTLE.

RE-OPENING.

CURES AND COMFORT FOR  
THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving old sores, wounds, bad legs, ulcers and eruptions of the skin. It is a powerful antiseptic, poultice and a most useful salve in practice, and gives a wholesome influence over the internal structures by cleansing all animal fluids with which it comes in contact, and thereby promotes sound and permanent cure.

Gout and Rheumatism.

If suffered from the rankling pains of Rheumatism and this Ointment will prove invaluable. After removing with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pill are infallible spe-

cially.

Ayer's Sarsaparilla,  
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its virtues, many of which are truly marvellous. Invertebrate diseases, such as Hydrocephalus, where the system seemed saturated with corruption, have been purified and cured by it. Serpentine affections and disorders, which were aggravated by the various contaminations until they were painfully afflicting, have been radically cured by the following.

Stomach, Bowel, and Internal Inflammation. These complaints are most easily removed by taking this Ointment, three times a day, upon the throat and neck of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Cold and Rheumatism, this treatment will be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula, and Scurvy.

This Ointment is a certain curer, Ringworm, Scrofula (or King's Evil), and the most invertebrate skin diseases to which the human race is subject. They can not be treated with a safer or more easily remedied than Holloway's Ointment, and it will remove all traces of the disease, and restore the skin to its original color and texture.

Piles, Fistulas, and Internal Inflammation. These complaints are most easily removed by taking this Ointment, three times a day, upon the throat and neck of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Cold and Rheumatism, this treatment will be followed with efficiency and safety—indeed, it has never been known to fail.

# THE BRITISH COLONIST.

Friday Morning, July 30, 1869.

The Canadian exodus of which we have heard much recently through the American press, turns out to be a very insignificant affair, indeed. It is true, that many young men of the Provinces have left their comfortable homes for White Pine; and that a number of families, taking advantage of the completion of the Pacific Railroad, have left Canada and settled along the line of road; but their places have been immediately filled by immigrants from the old country, who jumped eagerly at the chance of higher wages than they have been accustomed to command. The population of Canada is steadily increasing. The Year Book (from which we quoted some time ago) establishes that fact. The "exodus" is nothing more nor less than what is known on the Pacific Coast as a "rush," which always works its own cure. Towns and States suffer for a brief period from depletion of population; but the vacant places are soon filled by others, and it requires but a few months to regain all and more than the locality has lost. We read the other day that for the first five months of the year, 12,684 immigrants arrived at Montreal from foreign ports—add to these the natural increase to a population of upwards of 4,000,000, and it will easily be understood that the injury inflicted by the exodus is already more than supplied. The cry about the depopulation of Canada is the veriest bosh. There is more real prosperity within Canada's borders than is to be found anywhere in the adjacent American States.

## HOMESTEADS AND SAVINGS BANKS.

EDITOR BRITISH COLONIST:—If you would know whether a man is substantially prosperous and well to do in the world you look not so much to his present outward show and living—be it mean or lavish, bumble or pretentious—as to his surplus of income over expenditure and the safe investment of his earnings. No man, especially if he have a family, can be considered prudent unless he puts by something proportioned to his means every year, to provide for the exigencies of accident and the coming or a rainy day. What is true of the individual must be true of the mass and of the community. In no place is this proper prudence less conspicuous than that in which we live. How few of those who are well able to live safely within their means and invest any savings at all, of us (and the writer pleads guilty) spend what we happen to have in our pockets and let the future take care of itself—sufficient unto the day are the liabilities thereof. Too many live from hand to mouth, extravagant and niggardly by turns, in a country where labor is scarce and highly remunerated, without attempting to make provision for those who are dependent upon them.

Now, if I wish to learn whether a country is really progressing in true social prosperity, I ask (apart from commerce) what proportion of children attend school; how many paupers are there; how many depositors in the Savings Banks; what Provident Societies exist, how many persons own homesteads? From the answers to these queries I learn whether education, industry or thrift flourish in the land or not. The system of Public School Education lately inaugurated is on its trial and bids fair to succeed. It is with respect to homesteads and Savings Banks in this Colony that I wish to say a few words; but owing to the length of the present, these remarks must be reserved for another letter.

E. G. A.

## THE GREENWOOD SUBSCRIPTION.

EDITOR BRITISH COLONIST:—Would you please acknowledge the following sums collected for the widow and family of the late George Greenwood:

By Messrs. Fraim & Somerville, \$162 00  
" Mrs. Kent, per Mr. J. Russell, 109 37½  
" Mr. Dried, ..... 50 00  
" Mr. Foreman, ..... 31 00  
" Mr. Irvine, ..... 18 00  
Police Office, per Mr. Bowden, 16 50  
By Hibben & Co, ..... 12 50  
" Rev. Mr. Urige and Mr. Macdonald, ..... 10 00  
\$409 37½

Collectors will please pay the sums collected to Mr. Lawson, Bank, British North America.

THOMAS SOMERVILLE.  
JAMES FRAIM.

A MODEL M. D.—I had just finished my supper and was enjoying my cigar on the deck, when I heard a man declaiming, in a loud voice, to two or three attentive listeners, (but evidently intended for "whoever it might concern") at the same time, (an pathology. Being as it were, thus invited, I also became a listener to something like the following:

"There it is now! Well, some people talk about seated fevers: I don't know anything about seated fevers; there ain't no such thing as seated fevers. A skoter bite is a seated fever; cure the bite, and the fever quits you quick enough. Jes so with a ble—the same thing. There are no such thing, I tell you, as a seated fever. Fact is—and you can't rub it out—your regular doctor practises according to books; now I practise according to common sense. Take a case now: There was Dr. Rugg of our village, the very Samson of the Maturier Midiker. Wa'al, he treats fevers according to the books. What's the consequence? I get all the patients! He met me one day, and says he to me, 'How do you get all the fever cases?' I told him it was; and it is so."

"Well doctor," interrupted one of the listeners, "how do you treat fevers?" "Well, there it is, you see! You ask me how I treat fevers. If you'd asked me when I first commenced practising, I could ha' told you—can't tell now. I treat cases 'zactly as I find 'em—according as said afore, to common sense. And there it is! Now, there was Mrs. Scuttle; she was taken sick. All the folks said she had the consumption; hadn't the consumption more'n you've got it, (singling out a burly listener, who weighed some two hundred and fifty,) had two doctors at her at once; didn't do her a single mossel o' good. Wa'al, they sent for me; and as I went into the house I see a lot of tanzy and flock of chickens by the door. Felt her pulse. Says I—and she'll never forget it till her dying day—says I, "You ain't no more got the consumption than I've got it, not a bit! And there 'twas, you see! In two weeks I cured her."

"Well, but, doctor, how did you cure her?"

"There it is again! I told you I see a lot of tanzy and a flock of chickens growing at the door. I gin her some tanzy and fresh laid egg—brought her right up! It's kill or cure with me. Fact is, gentlemen," continued the doctor, "I call myself an officer. My saddle-bags is my soldiers, my disease is my enemy. I rush at him, and there he or me has got to conquer! I never give in."

By drawing attention to this serious nuisance you will greatly oblige a sufferer from it, and confer a blessing on the town and country generally.

R. specifically,  
J. I.

## THE TROT VANDALISM.

In yesterday morning's Colonist I read a short item asking who has authority to protect the public lands from invasion. Medina's Grove has been allowed to be squatted on and fenced from the public, with the shady trees cut down and firemen giving notice that their annual picnic was for the last time allowed on that spot. May I, as a citizen, be allowed to ask who is the person in the government to go to for redress?

Some time ago the government gave notice that people cutting trees on Ogden Point would be prosecuted. Such a law appears to be done away now by the present Surveyor General. In a short time the public park will share the same fate as Ogden Point.

A FIREMAN.

In yesterday morning's Colonist I read a short item asking who has authority to protect the public lands from invasion. Medina's Grove has been allowed to be squatted on and fenced from the public, with the shady trees cut down and firemen giving notice that their annual picnic was for the last time allowed on that spot. May I, as a citizen, be allowed to ask who is the person in the government to go to for redress?

Some time ago the government gave notice that people cutting trees on Ogden Point would be prosecuted. Such a law appears to be done away now by the present Surveyor General. In a short time the public park will share the same fate as Ogden Point.

BOLIS, PUSTRIL, BLOTHES and HUMOR.

All evidences of bad blood, and no matter what medicines are taken, if they don't purify the blood they can't. British Sarapavilla is the safest, the surest, and the best of all blood purifiers. It has been of British Sugar-coated Pills, taken at same time, will greatly hasten a cure.

PORTE OF VICTORIA, BRITISH COLUMBIA.

ENTERED  
July 29—Star Enterprise, Swanson, New Westminster  
CLEARED  
July 29—Star Otter, Louis, New Westminster

## MARSHED.

In this city, July 28, by Rev. Thos. Somerville, Mr. Wm. Steele to Mrs. Annie Beattie, both of Victoria.

## BIRTH.

In this city, July 29, the wife of Amador Molina, of a son.

## Auction Sales To-day.

GODFREY BROWN will sell at Messrs. Janion, Rhodes & Co's Warehouse, at 11 o'clock, a large assortment of general merchandise.

**ELKO DIRECTORY OF BRITISH COLUMBIA.**—Mr. B. Dernham has sent us the following partial list of citizens of Elko, in the White Pine district, who were formerly residents of British Columbia:—P M Backus, B Dernham and son, Jim Crawford, R Cameron Charley, of the Clubhouse Victoria, L Bish off, Wm Carty, Henry Harvey, Billy Baugh, Billy Billou, Harry Boyle, Bill Brannigan, A V Flack, Adamson, ex-Sheriff, Grossbaum of Lillooet, Levy, Frank Laumeister and son, Charley Laumeister, John Laumeister, Peter Wolf, Wm Loshe, Frank Greitjen, I. Lash, A Hofstien, Chris Hoerschner, Jacob Heintzel, John R K-trel, Meyer Oppenheimer, Jake Marks, Mike McLellan, (Cariboo,) Jack, Fisk, (of Fish & Greenbaum,) Simon Reinhart, N. Del-Banco, N Simpson, Sebastopol, Mike Hoppel, Walter Moberly, (engineer,) Jim Nolan, (Esquimal,) Murrit, Nicolas Patrel, Billy McDonald, Frank Way, Jim Sellers, A Scott, [barber,] Wm Jackson [steamer steward,] Wolf, [carpenter,] Edwards, [Esquimal,] Smith, [Esquimal,] Parker, Jacob Vette, Carl York, C C Gillette, Hilton, Johnny Williams, Joe Copland.

**AT LOW TIDE** yesterday morning James Bay presented an uncommon appearance. The water receding from the flats left them covered with small fish of the tomcod and sardine variety. It is no exaggeration to say that in places the tiny fellows were piled one on the other to the height of a foot in the ooze. Hundreds were caught by hand, and the entire shoal must have numbered many millions. We remember that Bishop Hills, in one of his letters from this place published in England, raised a smile of incredulity by stating that salmon were so plentiful in the Fraser river at times, that he had seen the little ones of the house sent to the riverside with a rake and pail to catch the family's supper! The Bishop's statement was literally true; but had any of his incredulous readers been present at James Bay yesterday they would have needed neither rake nor pail. They might have caught fish by the armful!

**THE OGDEN POINT PROPERTY**—We learn that the Executive Council has decided to eject *à la main* the holders of the land in dispute at Ogden Point. We hope that no rash or ill-considered steps will be taken while so many avenues remain open through which the question may be peaceably and legally adjusted. If the pre-emptors of the property have no legal right to it, let it be shown in a proper manner; if they have a legal right, let the Government abandon all claim to the land and allow it to be improved. In common with most citizens, we have been pleased to observe the beautiful grove of trees that clothe the nakedness of the Point and protected the city from the rude blasts of the prevailing summer wind, converted into firewood. But if the land or wood be private property, no valid objection can be advanced to any action its owners may take; only let everything be done in a strictly legal manner.

**ELECTION OF A COUNCILLOR.**—The election of a Councillor for James Bay Ward in place of M W Gibbs, who has overstayed his leave of absence, took place yesterday in front of the Police Barracks. At noon precisely, the returning officer appeared, and stated the object and circumstances of the election in due legal form. Mr J G McKay then proposed Mr Arthur Bunster as a fit and proper person to represent the citizens of James Bay Ward in the Municipal Council; the candidate was seconded by Mr Smith Allatt. The returning officer complied with the usual form in asking if any other candidate was to be proposed, and receiving no reply, declared Mr. Arthur Bunster duly elected, a result that was received with plaudits. Mr. Bunster was not present to return thanks for the honor conferred. We presume he reserves his eloquence for the Council Chamber.

**COMMUNICATION WITH RED RIVER.**—Mr. Snow, in charge of the road from Fort Garry to the Lake of the Woods, has left Ottawa to expedite that work. Mr. Dawson has also left for Fort William to push the road at the east end. It is expected that by next summer a highway will be opened through from Fort William to Fort Garry. It will be left to private enterprise to put steamers on the navigable portions of the route. It is expected that the Government will subsidize the line. Mr. Bell, of the Geological Survey, is engaged in examining the country to the north of Lake Neepigon or Lake Superior, and his observations will enable the public to form an opinion as to the feasibility of constructing a line of railway on the north of Lake Superior, communicating with Red River.

**THE CAMP-MEETING.**—The spiritual results of the Wesleyan camp-meeting are said to be highly satisfactory. A number of conversions were effected.

The ship Matthew Ridout is on the way from San Francisco for Burrard Inlet to load lumber at the B C & V Mills.

**INCUBUS.**—The report that a steamer entered Esquimalt harbor last evening.

**QUICK TIME.**—Express goods have been received at the London House which left London in June. They consist of the new Windermere, Loch Lomond, K Harry, and Baden Costumes, woven in one piece, Trimmings and Buttons of latest styles; Bonnets and Hats as worn this summer in Paris; Ribbons, Japanese Silks, and fancy goods. Additional by every express and by ship Lady Lampson, from London.

**VICTORIA HOUSE.**—Just received by Express the New and Elegant Lace Scarfs, (Garde Francaise, Chevreuse and Incroyable,) Real Lace Shawls, Irish Poplins, Gauze Silks, Satins, Ribbons, Trimmings, Buttons, Flowers, Trimmed Sets, Lace Fabrics, Silk Sergs, New Dress Materials, and a variety of Fancy Goods; also a complete assortment of Ladies' Skirts and underclothing.

**FELL'S COFFEE** has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains.

**CHEAP SHAVING.**—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before.

**THE REPAIRS** on the telegraph cable have commenced. The telegraph fleet, consisting of the steamer Emma, schooner Winged Bearer, and barge Nondescript, arrived yesterday morning.

**Buy IN AND TRY IT.**—Russell's celebrated coffee, "The best on the Coast." Warmed coffee, a pure and healthful beverage.

**THE REPAIRS** on the telegraph cable have commenced. The telegraph fleet, consisting of the steamer Emma, schooner Winged

Bearer, and barge Nondescript, arrived yesterday morning.

## Medical.

**French Medicines,**  
PREPARED BY  
**GRIMAUXT & CO.**  
Chemists to H. I. H. Prince Napoleon  
**PARIS.**

These different medicines represent the most recent medical discoveries founded on the principles of Chemistry and Therapeutics. They must not be confounded with nostrum or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They differ from those numerous medicines mentioned in public papers and books to cure every possible disease, as they are applicable only to a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those who have undergone an examination by the Academy of Medicine and have been proved efficient in the hospitals or the practice of the first medicine, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault et Co.'s Medicines.

**DOCTOR LERAS'**  
(Doctor of Medicine.)

**LIQUID PHOSPHATE OF IRON.**

The newest and most esteemed medicine in cases of Diarrhoea, Bruin in the Stomach, Diphtheria, Inflammation of the Liver, Antivenous, General Debility, &c. &c.

It is particularly recommended to regulate the functions of nature, and to all ladies delicate constitution, as well as to persons suffering under every kind of debility whatever. It is the preservative of health par excellence, in all warm and relaxing climates.

**NO MORE COD LIVER OIL!**

**Grimault's Syrup of Iodized Horse Radish.**

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Tonic, and Loss of Appetite. It cures the common Disease of purulent Ulcers, it being the most powerful drug known. It has been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Hemorrhoids and Obstructions of the Glands.

**CONSUMPTION CURED!**

**Grimault's Syrup of Hypophosphate of Lime.**

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease, and the patient regains his former strength. N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitation.

**MORE DIFFICULT OR PAINFUL DIGESTION!**

**DR BURIN DUBUISSON'S**  
(Laureate of the Paris Imperial Academy of Medicine)

**DIGESTIVE LOZENGES**  
This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangement of the digestive organs, such as

**Catarrh,**  
Gastritis,  
Long and Laborious Digestion,  
Wind in the Stomach and Bowels,  
Emaciation,  
Jaundice, and  
C. malato the Liver & Lungs

**Only Silver Medal Awarded, Paris Exhibition, 1867. Juror, 1862.**

## Groceries and Provisions.

## FRAUD

On the 27th June, 1866, MOSEYEWALLAH, a Printer, was convicted at the Supreme Court, Calcutta, of counterfeiting the notes of Messrs. GROSSE & BLACKWELL, London, and was sentenced by Mr Justice Bharat, to two years rigorous imprisonment.

And on the 20th of the same month, for

**SELLING SPURIOUS ARTICLES**
